EXPERIENCE

Consultant/Freelance

UX/UI Designer/ 2022-2024

I have been working on a few local company websites helping them rebrand and update their web presence. I have also provided photography services for engagement, events, and personal shoots. Currently, I have been providing interior design and remodeling services to family and friends to help them create a refresh to their homes.

Bang Energy

Senior UX/UI Designer/March 2023-July 2023

As a senior designer at the company, I continued the workflow that I created while leading and managing the UX projects associated with the marketing team's campaign and product marketing schedule with the help of consultant designers.

UX/UI Designer/March 2021-March 2023

Bang Energy is a food & beverage company that has created many products in the sports nutrition world where I worked on improving and re-developing their e-commerce and other promotional websites. As the company's only designer, I created a workflow that focused on the UX process from research to concept development to final design.

Juice Pharma Worldwide

Design Intern / July 2019 - August 2019

Juice Pharma Worldwide is a pharmaceutical advertising agency where I worked with lo-fi wireframes to design advertising assets for a client's campaign like website layouts, brochures, standing, wall, and digital banners.
